WELS KIDS CONNECTION

April Episode: Technology affects every part of our lives from our car to our microwave, from cell phones to laptops. This month we meet two groups of kids who are using technology in unique ways. Our first stop is St. John's Lutheran School in Burlington, Wisconsin where the eighth grade computer class has turned into a production company. Students work in five different production areas: sports reporting, a quarterly newsletter, yearbook, PowerPoint slideshows, and the SJB Connection video. Many life-lessons are being learned. Computers can take a prayer from a piece of paper and shoot it around the world. Watch students create podcasts of Bible passages, student-written devotions, and prayers. Finally, Pastor Tony Schultz takes us to the cemetery for a look at the thrilling Easter message.

***I KNOW THAT MY REDEEMER LIVES.
WHAT COMFORT THIS SWEET SENTENCE GIVES!***
